#### **Santa Ana Wind Event**

Cold surface high pressure over the Great Basin will force moderate to strong Santa Ana winds through and below the passes and canyons of portions of Southern California through Sunday. These winds combined with low relative humidity, dry fuels, and warmer days will increase the potential for rapid fire growth and extreme fire danger this weekend in portions of Los Angeles, Orange, Riverside, San Bernardino, San Diego, and Ventura Counties. The winds will weaken a bit late Sunday and into Monday; however, it will remain locally breezy, warm, and very dry.
